Product Features	<ul style="list-style-type: none"> • The Legend Continues: The K70 PRO retains the iconic elements of the award-winning K70 RGB with a durable aluminum frame, CHERRY MX mechanical keyswitches, and per-key RGB backlighting, while setting a new bar for performance with AXON technology, PBT double-shot keycaps, and a tournament switch. • CORSAIR OPX Optical-Mechanical Keyswitches: Hyper-fast input with 1.0mm actuation distance and smooth linear travel, guaranteed for 150 million keystrokes, and register keypresses up to 8x faster than standard mechanical gaming keyboards with CORSAIR AXON.

- **Powered by CORSAIR AXON Hyper-Processing Technology:** Enables a new level of K70 performance, processing and transmitting your inputs up to 8x faster than conventional gaming keyboards with 8,000Hz hyper-polling, 4,000Hz key scanning, and up to 20 layers of hardware RGB lighting processing while maintaining speed performance.
- **PBT DOUBLE-SHOT PRO Keycaps with Standard Bottom Row:** A precision-molded keycap set resists wear, fading, and shine, with 1.5mm thickness for rigid stability and a standard bottom row layout to swap in custom keycap sets.
- **Switch on the Competition:** Flip the tournament switch to focus on winning those crucial games, automatically locking to distraction-free static backlighting and disabling accidental macro activations.
- **Detachable Braided USB Type-C Cable:** Makes the K70 PRO easy to set up and ready to take on the go.
- **Magnetic, Soft-Touch Palm Rest:** Seamlessly snaps magnetically onto the keyboard, with a soft-touch patterned surface for grip and comfort during the longest gaming sessions.
- **Dedicated Media Keys and Volume Roller:** Easily control your media at the push of a button, while the signature CORSAIR aluminum roller smoothly adjusts volume levels and is fully programmable in iCUE software to perform custom actions.
- **Onboard Macro Recording with Function Layer:** Record macros on-the-fly with a convenient hotkey and save them to FN key combination shortcuts, for easy access to complex actions without sacrificing standard key functionality.
- **Up to 50 Onboard Profiles:** Save custom macros, actions, and your own uniquely vibrant RGB lighting effects, driven by AXON with up to 20 lighting effect layers.
- **Unite Your Setup:** Powerful CORSAIR iCUE software on both Windows and macOS enables dynamic RGB lighting control, key remaps and macro programming, and exclusive iCUE integrations with select games that turn your entire system's lighting into an extension of the action.
